

How to set the NMC LED Counter Display

1. Push and hold the bottom left button (A) until center dashes flash.

(A) 5+ seconds

2. Press each button **ONCE** (A,B,C,D) until display reads all zeros.

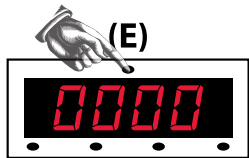

NOTE - Display will keep flashing

(A) (B) (C) (D)

3. Press top button (E) once quickly.

NOTE - All zeros will continue to flash

(E)

4. Set display to desired number of days by pressing the bottom buttons (A,B,C or D) under each digit.

NOTE- All numbers will keep flashing. Start Value is 1 (Day)

The numbers should be set at **000 1** to begin.

Or advance the number to start at your current record.

(D)

5. Press top button (E) once more quickly, to lock-in the desired number of days. This will also start the 24 hour counter to advance display by one digit, daily.

(E)

TO RESET COUNTER, FOLLOW THE ABOVE INSTRUCTIONS
